Subject: RE: Rover Pipeline Project - webinar Resource Reports presentation

Mr. Allen,

Thank you for your early coordination with the MDEQ regarding this project. Here at DEQ we are under very tight Legislature dictated schedules for review and processing of permit applications before us. While we appreciate the early coordination Rover is doing, my staff and I have little extra time to devote to projects not yet before us. By the time of the next phone call we will not have reviewed the CD you recently sent. Please do not interpret our silence or minimal participation during these calls as evidence of our low interest or worse yet, our no objection/no comment to what is being said or presented.

We do very much appreciate Rover providing us with a Rover name and phone number we can direct the public to. This is very helpful.

We would hope that wetlands are being mapped using the USACE method, along with any appropriate supplements. Alternative routes and/or installation methods that would have less

impact on natural resources are being/have been reviewed. To name just a few issues that have been problematic for others pursuing similar projects. We look forward to diving deeper into this issue when an application for permit is close to being ready. When that time comes I suggest Rover and DEQ have a pre-application meeting. Someone from my unit will be on the next call. If you have any questions, please contact me..Andy

Subject: Rover Pipeline Project - webinar Resource Reports presentation

Ladies and Gentlemen: please find attached above the Rover Pipeline Resource Reports Presentation for our webinar meeting to be held this Wednesday, December 10, 2014 at 10:00 am CST. In addition, provided herein is the toll-free call in number, the webinar link, a master Resource Reports Table of Contents, and other useful information.

Call In Number: Ex. 6 - Personal Privacy ; **Passcode:** Ex. 6 - Personal Privacy

Meeting time: 10:00 AM CST, 12/10/14.

PARTICIPANTS may logon as guests to the webinar using the following link:

<http://entrix.adobeconnect.com/wardmeeting>

Subject: From Rover Pipeline LLC - FERC Interagency Teleconference

FERC Docket No. PF14-14-000 (Pre-Filing application)

Rover Pipeline Project

Teleconference requested by:

Ms. Kara Harris, FERC Project Manager

Federal Energy Regulatory Commission

Office of Energy Projects (202) 502-6296

Teleconference Agenda:

- Rover Presentation – Resource Reports 6, 7, 8, and 12
- FERC Scoping Meetings
- Open discussion for Agency questions: processing schedules, data

requests, contact information, etc.

Also, the Rover Pipeline Project webpage is located at:

http://www.energytransfer.com/ops_etrover.aspx

This webpage contains useful information especially for landowners and other interested stakeholders. Rover has attached on this webpage a ***Frequently Asked Questions*** that include a number of questions that were received during the Open House meetings. If you are getting questions from landowners, please direct their inquiries to the Rover webpage, or have them call the Rover toll-free number at:

Rover Pipeline Project Toll Free Phone Number: 1-888-844-3718

Or contact Mark Vedral at Mark.Vedral@energytransfer.com

thank you.
